

The Future in a Word: WAR!

How is it possible that a clearly rogue nation (USA) which touts world domination by military force and flouts international and local laws habitually, has become the leader of all western nations, when its past and present leaders should be on trial? If you ask that very relevant question the answer becomes plain, western populations have surrendered their democratic (majority rule) prerogatives to criminals in high office and as a result, are being led like sheep to the slaughter. 'If you follow a blowfly it can only lead you to shit!' -- an old Slav adage.

Western war criminals abound today and arrogantly profess that their horrific crimes of mass murder and ruining once stable nations was in the best interests of their States -- lunacy has become an acceptable defence today -- who are they/you trying to kid? Every US/NATO military intervention has ended in a catastrophic quagmire of ongoing bloodletting and chaos yet these KNOWN past and present criminals remain in power (or protected) and are presently preparing for nuclear war with China and Russia -- need I state that these proven psychopaths, the leader of which group, stated publicly that invading Iraq would be a six-week "cakewalk" and that the invaded population would welcome US invaders (oil thieves) with "bouquets of flowers!" How insane does one have to be before the people act? Surely, enough self-evident REALITY exists to roundly condemn and execute these brazen, mass murdering, INSANE war CRIMINALS, yet where is the moral majority? Hiding under their beds no doubt hoping they'll never be asked to take responsibility for their miserable, subservient, cowardly lives. What a thorough tragedy today's masses actually are, as it is clear ALL the blame for the chaos in our world is to be laid at their/our trembling feet.

Why avoid the obvious or hide in denial, WE ARE TO BLAME, ALL OF US! And whether we like it or not we take full responsibility and MUST accept the outcome, which is psychopathic criminals plunging the entire world into nuclear war in order to satisfy a pathological, megalomaniacal dream of world domination, which HISTORY has clearly proven, TIME AND AGAIN, ends in utter and total ruin for the peoples and nations that pursue it!

Alternative journalists would do well to spell out the disgraceful cowardice and acquiescence of today's masses, which seem to be less aware of their fate than cattle and sheep led to the slaughter yards. But do not fret or shrink in horror at the REALITY that confronts you, I'll have a "bouquet of flowers" to give you as you enter the gates of hell -- you disgraceful, lame, disconnected gastrics -- you deserve everything you get.
