

It's Time America -- Boycott the Major Parties

by jess *Tuesday, Oct 18 2016, 10:27pm*

international / prose / post

The western masses are making democracy a reality again. The majority of people in the UK have clearly rejected the status quo and rejected major owned, corrupt and UNREPRESENTATIVE parties. The Brexit vote speaks volumes, as both major parties supported staying in the EU. Australia and other nations have seen an over 30% swing AWAY from major unrepresentative parties. But it's America that holds the key to the future, as it's the most powerful military nation on earth. World peace is in your hands.

If you would have peace America and see the criminals in Washington face justice then cast your vote according to your conscience; no-one need tell Americans that the current candidates from the two major parties were scraped from the sides of a sewer pipe, plain to see. So whichever party you vote for ensure it's not Republican or Democrat, and you may have a chance to restore your lives and hijacked democracy.

Democracy is not a two-horse, one stable race, where you are forced to choose the lesser evil -- reject evil period, and install real REPRESENTATIVES into office federally and locally -- at all times. Follow your brothers and sisters throughout the Western world and reject, lies corruption and filth and the puppets that serve elite minority interests, which are leading your nation into a needless war with other powerful nations.

Vote for REPRESENTATION for a change -- give yourself a chance! If lesser nations than you are able then show the WAY, America.
