

Do You Really Care?

by cyd Saturday, Dec 3 2016, 1:06am

international / prose / post

I would begin with a question. Under international and local law is any person, agency or entity allowed to murder with impunity? Some of you that have taken for granted certain events which have become 'naturalized' may be shocked by the answer, which obviously is NO! With REALITY, not media induced fantasy, now established, I would refer to the recent death of Fidel Castro, call him what you will, dictator, savior or whatever, as that is NOT the issue -- never allow your emotions to blind reason.

Castro's recent passing forced certain historical events to be given air again, namely the widely known attempts by the incompetent, murdering CIA on Castro's life, all of which comical but nefarious attempts, FAILED miserably. But the point/issue is, who gave the CIA a cart blanc to kill anyone those idiots deemed to be a target for MURDER, including I would add, JFK, MLK, Malcolm X and a host of others? The short clear answer is YOU, as you have installed governments that do not represent the people, morality or honest legal enterprise. The CIA is a government agency given a license to kill, though that action is clearly ILLEGAL in any court on the planet, and don't talk to me about expediency as that is just an EXCUSE. So we face OUR complicity in the crimes of the CIA/USA, which also includes HUGE drug trafficking operations required for black funds which do not leave a paper trail of compromise to government officials.

The Castro affair is but one of thousands of examples of recorded illegal enterprises the CIA and other government agencies have been and are involved in today, which now includes creating, training and supporting (with weapons) ISIS, do some research. There are many more sordid enterprises the CIA engages in, far too numerous to list here. So WE are in NO position to complain if say, this murdering incompetent bunch of CIA clowns triggers WWII, via one of their proxy fighting groups now engaged in direct conflict with Russia in the Middle East.

Also, if you remember rightly, the invasion of Iraq was based on a raft of orchestrated LIES, rejected by the UN at the time but accepted by Blair and Howard of Australia, two infamous cowards and lackeys. So someone MUST pay for the NEEDLESS deaths of millions of INNOCENT citizens and the ruination of a nation, notwithstanding that 500,000 children were allowed to die due to medical embargoes on Iraq, enforced by president Bill and aspiring president Hillary Clinton, but as Sec. of State Albright said at the time, it was 'worth it!' Worth what, you psychopath?

Now note how Trump immediately pulled an Obama after his election win by stating that he wouldn't undertake proceedings against, 'we came, we saw, he died,' a full admission of culpability in the death of Gaddafi, Ms Clinton. We must 'look forward,' Trump stated, echoing Obama's infamous sell-out on integrity, honesty, HOPE and the TRUTH, so much for the media nose-ringed apathetic American people, you PATHETIC, banjo-playing, GUTLESS, MORONS, you deserve EVERYTHING you get if you fail to act to REMEDY the thousands of crimes and injustices perpetrated on millions of citizens world-wide AND at home -- target practice on unarmed blacks, anyone?

If we care to look at the REAL picture, which includes neocons planning a new 'pearl harbor' (9/11) to allow a dictatorship in the form of unassailable executive powers, which of course place the

democratically elected president above the LAW, it becomes clear we are dealing with a criminal State run by insane neocons and the most sordid criminal gangsters in history -- that is how the WORLD views the USA.

However, the situation is NOT hopeless, though Obama and now lackey president to be, Trump CLEARLY are.

Isn't it ABOUT TIME we took back our respective nations? A nation is its PEOPLE and sovereign lands and seas, nothing more or less? So, WE are the RIGHTFUL owners of our respective countries, not special interests, elite wealthy minorities or anything/one else; it is OUR nation and we are responsible for its destiny -- something made very clear by the founding fathers of America -- but as that brazen criminal dubya Bush stated to the WORLD, America's founding documents are 'only pieces of paper, I am commander-in-chief,' so moron Bush placed himself above everything America once held sacred and stood for. A puppet imbecile and war criminal placed himself above all the values, LAWS and intelligent, prudent written founding documents written by the founding fathers -- which action was in fact a treasonous coup on the Republic and PEOPLE of America. But did we see outrage, or the manifestation/realization of the provision in the founding documents to DEMAND, and take up arms if necessary, the RESTORATION of REPRESENTATIVE democracy and the Republic if it was threatened or hijacked by nefarious interests? NO, we saw apathetic GUTLESS Americans TAKE IT UP THE ASS -- the ENTIRE WORLD witnessed and watched in horror and amazement as a handful of criminals and neocons hijacked the American nation.

Today there is no America, only a criminal state run by gangsters that consider themselves above the LAW, moral values and all religious principles that extol GOOD, and WE THE PEOPLE have allowed it ALL to become a horrid REALITY.
