

Morrison and Turnbull, Unscrupulous LIARS

by darcy Monday, Dec 12 2016, 12:32am

international / prose / post

Recall conservative treasurer Morrison's mantra, "we don't have a revenue problem we have a spending problem," which translates to cut backs on essential services and pensions. Needless to say very few average Australians believe Morrison's and Turnbull's BULLSHIT, self-evident, as the Turnbull government has already given the corporate sector a \$50 billion gift in breaks and favours while ignoring the plight of average Aussies. Well today Oz instincts regarding the INTEGRITY DEVOID, useless, Turnbull government have been supported by the FACT that 700 multinationals operating parasitically in Australia have paid ZERO TAX in past YEARS; "*The corporate tax [transparency report](#) published by the Australian Taxation Office showed that more than a third of large public and private companies paid no tax in 2014-15.*"

Turnbull and Morrison, Lying, treacherous, bastards and FRAUDS

And so, who does this unscrupulous, callous, conservative government target to fill its coffers, Aussie battlers, students/youth and vulnerable pensioners, with huge cut-backs in social services, education and associated areas. Well, the cat is now out of the bag and no Aussie has any excuse whatsoever supporting a government that only panders to the TAX-AVOIDING elite corporate sector, while average Aussies pay the price in hardship and misery.

Of course corporate offenders maintain that their avoidance schemes comply with existing laws, which is accurate -- BUT that's why people install governments to deal with these morally bankrupt issues and to force EVERYONE to pay their fair share of tax. Now consider that multinational profits combined amount to hundreds of billions if not trillions of dollars. Revenue problem? You'd better believe it!

The cure is NOT installing the opposition party into office -- as both major parties are in the pockets of the banker/corporate elite. Only one feasible option/cure presents itself to Aussies at the current time, and that is to install as many REPRESENTATIVE INDEPENDENTS that FIGHT for the rights of the MAJORITY into office in every election State and Federal -- only then would average Aussies have a voice and see justice done.

It is widely known that both major parties are hamstrung by powerful, wealthy corporate interests that not only own the media but also donate funds in order to secure an easy ride -- but that easy ride today is now clearly BEYOND the PALE. Fuck both Turnbull and Shorten, vote REAL

representatives into office, ALWAYS; notwithstanding the fact that the population is able to DEMAND justice and fair play and hold all serving governments to ACCOUNT.
