War Criminal Defends War Criminals

This outburst straight from the Red Queen's court. Obama parroting the Zionist line makes for a revealing faux pas! Questioned by reporters on the Gaza conflict during his SE Asian jaunt, Obama replied, "... *we are fully supportive of Israel's right to defend itself* ..." even though Israel summarily executed a high profile Palestinian leader which [triggered](#) a retaliatory response and the ensuing conflict!

He went on to say, "***no country on Earth would tolerate missiles raining down on its citizens..***," he got that right, but he forgot a crucial reality; that is EXACTLY why Pakistan, Sudan, Yemen, Afghanistan, Somalia etc and numerous other nations where the USA RAINS its hellfire missiles from Drones, justifiably FIGHT BACK -- thanks, Barack, for making it plain, you scripted, servile, dunce!

So, there is no terrorist threat in those nations, citizens are justifiably defending themselves from US missile attacks -- isn't that right, Mr indefinite detention, kill list, Drone president!
