About 8 mins 30 seconds into Obama's farewell address (video below), the TRUTH comes out; Obama himself states there is NO evidence of a 'hack;' so much for FBI/CIA/DHS claims, which TREASONOUS institutions are currently engaged, full force, in a campaign to unseat President Trump -- now that is the reality, which is easily verified. So what do we do with treasonous elite insider forces and their stooges attempting to subvert democracy and remove the PEOPLE'S choice from Office?

Donald Trump

Simple, as all truly effective solutions are. Form a special 'UNTOUCHABLE' force extracted from the agencies and law enforcement, handpicked and sanctioned by the President himself and arrest those responsible for attempting to subvert the office of the President with false claims, outrageous LIES and unsubstantiated 'evidence,' and do not stop with the elite's stooges, root out elite controllers and place them ALL on trial for TREASON; the rot has set in and MUST be removed for the sake of the people and the nation -- in fact, there is no other choice!

President Trump now possesses the extra-ordinary executive powers of a wartime president -- USE them, Mr President -- the TRUTH must be served if America is to regain its former position in the FREE world and survive viably into the future.

Furthermore, if Eliot Ness could do it to break Chicago organised crime and its tentacles that reached into the government of his day, then the current situation should present no problems whatsoever for a president invested with executive war powers today -- go for it Mr president, and 'see how THEY run!'

From former Ambassador, [Craig Murray](#):

In his final press conference, beginning around 8 minutes 30 seconds in, Obama admits that they have no evidence of how WikiLeaks got the DNC material. This undermines the stream of completely evidence-free nonsense that has been emerging from the US intelligence services this last two months, in which a series of suppositions have been strung together to make unfounded assertions

that have been repeated again and again in the mainstream media.

Most crucially of all Obama refers to “The DNC emails that were leaked”. Note “leaked” and not “hacked”. I have been repeating that this was a leak, not a hack, until I am blue in the face. William Binney, former Technical Director of the NSA, has asserted that were it a hack the NSA would be able to give the precise details down to the second it occurred, and it is plain from the reports released they have no such information. Yet the media has persisted with this nonsense “Russian hacking” story.

Obama’s reference to the “the DNC emails that were leaked” appears very natural, fluent and unforced. It is good to have the truth finally told.
