If you are among the informed minority, you would be aware of what is referred to by many commentators as the 'Deep State' and 'Shadow government.' Those who may not have encountered these terms but are familiar with political terms, such as Oligarchy, Plutocracy and Elite, which loosely refer to same.

Today all the rage in the alternative media is the Deep State, Shadow Government and "Fake News;" but let's extend that a little and realise the term missing in all this is FAKE GOVERNMENT. Yes, you read it right, so-called western democratic governments are FAKE. They do not represent the people that voted them into office, obvious, they represent wealthy elite interests and only pursue their policies. So wonder no more why politicians LIE through their teeth and then stab the public in the back after they are elected. The entire procedure is FAKE, a charade, a SHAM in order to give the impression that the public has a choice when clearly they do not -- in fact they have no influence whatsoever on national affairs today.

The following video is a must see for educational purposes; viewers would note that the masses or democratic majority are referred to as "expendable cattle," that is how we are viewed by minority, unrepresentative, elite interests.

Now, after you have viewed this short video (below) and hopefully researched the matter and verified the TRUTH of it, if you fail to act to eradicate this clearly criminal (wars) elite from the face of the earth, then indeed you TRULY ARE good-for-nothing, 'expendable cattle' and sheep fit for the SLAUGHTER.
