With the forced exit of Michael Flynn from the Trump administration rogue elements in Washington remain safe, the ‘swamp’ will not be drained.

The ‘Washington Swamp’ is a very apt metaphor, it refers to rogue elements in Washington issuing from the CIA, Pentagon and neocons, which together form a treasonous, unholy alliance pursuing an agenda independent of government and the wishes of the people, though of course, the unholy, lunatic alliance would beg to differ.

To put it succinctly these elements pursue the ‘perpetual war’ agenda first publicly outlined by the neocons in their PNAC manifesto and related documents, all of which are freely available in the public domain; indeed, the most effective way to hide nefarious intent is to advertise the fact as though you have nothing to hide; yet these documents clearly and emphatically state that America must rule the world alone as a uni-polar imperial power, which ridiculous aspiration is quite literally pathological, history has proven it can’t be done as other free nations ALWAYS oppose outside rule or domination; however, notwithstanding that fact, the neocon agenda is half-way to realisation though it will never succeed.

So you can imagine the real threat Trump and Flynn posed when they vowed to ‘drain the swamp;’ please note that the neocons have been entrenched in Washington since the ‘dubya’ Bush presidency especially in areas related to foreign policy and war. However, no-one works effectively alone, hence the unholy alliance from Washington’s most powerful entities, the CIA and Pentagon.

Michael Flynn did not commit a heinous act by conversing with a senior Russian diplomat though Flynn, imagining he had absolutely nothing to hide, utilised an unsecured line which was easily monitored by his enemies within the deep state -- now understand that the entire conversation was recorded by Flynn’s enemies and if anything truly compromising was said by Flynn it would have made front page headlines, but nothing compromising has been published, as usual, who needs evidence when dealing with a media lobotomised American public? So the tack was to label the conversation a conspiratorial anti-American act, which is laughable. A big ego is a dangerous thing Mr Flynn, everyone is vulnerable including the internal ‘deep state’ enemies of the American people. Taking no precautions with security and placing faith in a reality TV performer is the height of folly, especially when surrounded by subversive elements out for your blood.

Well, Michael Flynn learned the hard way, no doubt expecting his boss and partner 'swamp drainer,' to simply support him. However, Trump being the gutless, trembling coward that he really is, fed Flynn to the dogs not realising that he would now be an easy target for the unholy alliance. In other words, Trump has acquiesced to the forces he vowed to purge from Washington, well done you spineless, LYING shit!

There was/is very little to credit the Trump admin with, but draining the Washington swamp was not only a very good idea it remains a NECESSITY/IMPERATIVE if America and the world is to have a chance for peace, a dirty word to the neocons and other rogue elements in Washington.

So 'onward' the world goes allowing the war mongering neocons and deep state interests to pursue evermore destructive actions and policies all in the VAIN hope that the clearly un-achievable/impossible -- world domination -- can be achieved.

Seems like we've heard it all before, and remember that populations failed to act then as they fail to act today -- so don't come running and crying to the few aware writers and commentators that have been warning the masses of a future riddled with chaos and nuclear war, when peace was/is simply a people's choice away.

It's a crying shame that nothing ever changes and the world must constantly repeat the monumental blunders and mistakes of the past. So expect the worst, especially NOW that Trump has OPENLY acquiesced to the darker elements within Washington. What a wimp! But of course, Trump is acutely aware of the fate of a previous president who also threatened to clean the swamp, JFK -- and therein is further proof of the problem. The USA is a captured -- by elite nefarious forces -- nation. It's fate is now sealed as history clearly informs us, you dumbarse, cowardly, banjo-playing, media-lobotomised, doddle dandies!

Truly, there is 'nothing new under the sun,' and I am not a religionist! It's enough to shake the faith of an atheist!

Have fun, morons, cos you're 'not worth a pinch of shit,' as we say in Tumbaramba.
