

What to Do?

by justin *Saturday, Mar 25 2017, 10:32am*

international / prose / post

What do YOU do when you know that the American led illegal invasions of Iraq, Afghanistan, Libya, Syria etc were pre-planned wars of resource theft, based on orchestrated LIES? These wars resulted in millions of innocent civilian deaths and millions more lives ruined and displaced.

Do we allow KNOWN war criminals to remain free or do WE hold them accountable for their atrocious war crimes -- war crimes trials are LONG OVERDUE?

Do we passively allow the world to go to hell in a hand basket or do we act to remedy the gross injustices of the culpable by holding them to account? History records that these wars were/are ALL illegal, so no excuses exist NOT to take remedial action to stop the mass murdering banker/corporations from continuing their mayhem.

If indeed we fail to act NOW then do not complain when the clearly psychopathic elites plunge the world into a nuclear and environmental catastrophe.

We are all responsible by passively accepting criminal rule and failing to take ACTION to save our world and our lives.

The current tragedy is that someone has to spell out what the overwhelming majority knows. The fact is if we fail to act then as sure as night follows day the situation would deteriorate to the point of no return; criminal ruling psychopaths must be incarcerated for the good of ALL.

May your conscience be your guide.
