

Slavery 2017

In the 18th and 19th centuries, African slaves that did not 'behave', were cruelly beaten sometimes to death, as a deterrent to others. Slaves were deprived of food for their families, their women were raped and then they were usually traded to harsher white masters for a pittance. Their lives were worth only what their labor could produce. They were viewed and treated as subjects, devoid of human rights.

Today we have all become slaves; slaves to the powers of mafia banksters, big finance and corporatists. We have most importantly also become mind slaves -- slaves to western lie-propaganda systems; to the lobbies that serve mega-corporations; to the war-industry, all because we happily believe what we are told about ever-increasing terrorism that allows perpetual wars of international theft. We have also been trained to be obedient slaves to big pharma; to GM Monsanto produced 'foods' and of course to mindless consumerism, which has created a profound slavery to greed, endless greed that drives endless plunder, which nurtures competition and foments adversity, destroying solidarity and amicable relations.

As people of western nations, we are enslaved to an all-engulfing neoliberal fascism - to a predatory economy driven by corporate lies; propaganda drip-feds our brains and yet we haven't noticed it. We are enslaved to so-called 'leaders', put in office by obscure masters of deceit which utilize the mass media as a propaganda machine - the rubbish that issues therefrom we believe because it is more comfortable to believe a lie than to confront the truth of our slavery.

That's how far we have plummeted. We are clearly on an almost irreversible downward track sliding and running towards our own demise - into darkness - the darkness of chaos and bloody wars, endless wars against invented terrorism; wars that keep our western economy running and our armchair politics alive. Wars that kill and slaughter millions - but all in 'far-away' lands. We are told we are protected. Our police and military watch over us. The new gods - money and military.

To prevent this endless terror/chaos occurring in western spheres, Europe, United States of America, Canada, Australia, Japan - and whichever other nation has been subsumed by the evil western slaughter machine - we export it to weaker vulnerable, resource rich nations, this way we are 'kept safe' from the mass murderers which would otherwise prey on us. We allow our police to murder unarmed blacks and allow our military to slaughter millions of innocents so that greedy elites accumulate evermore wealth which they do not share. We have surrendered our power to the dark forces and by so doing we give them more power to enslave us further.

Global elites command what is termed 'The Market.' as though it is a neutral entity, when it is clearly owned and controlled by the most wealthy players that are able to do anything they wish with it, as they also print money via the Federal Reserve which they also OWN . We are led to believe the market is 'free' when nothing could be further from the truth. The Market integrates everything into itself, it determines in what conditions we live and die, so we are fed dreams of wealth and success to keep our minds away from the fact that we are in reality SLAVES!

We slaves have no pride or self respect because we are SUBJECTS and easily led. Western powers

have for centuries enslaved, raped, exploited and slaughtered the indigenous people for the profit of the few. We can only hope that the patience of native peoples, the survivors, will prevail and that their message is learned. But before we all disappear into the darkness, into the void of a man made blackhole, we will be forced to awake, open our eyes and see the ugly Truth of our predicament. However, if we wake voluntarily we could regain our humanity and freedom.

Beware of anyone that contradicts truth and pursues the current, nihilistic status quo. Beware of anyone that decries the truth tellers as they are our voices of freedom. Abandon our western imposed parameters, they are made to enslave us so that an ever-smaller elite can grow wealthier, so they are easily able to 'swamp' our governments and own 'leaders' like the Clintons, Trumps, Obamas, Bushes, Blairs, Merkels, Abes, Hollandes - and soon probably Macrons - and many more around the globe.

We are expected to vote for these people, professional politicians, most of whom have been pre-selected by the elites that control the globe. Every four or five years we fall for the same rituals and believe things will change. We never dig deep down to find the reasons why everything stays the same and actually gets worse, despite our unhappiness and despite our declining living standards, we remain blind. Slavery makes us blind. We are more comfortable as blind slaves than as seeing humans. So, we keep falling for the same lies and illusions.

Our lives are grey-white like a foggy sky, no sun. The sun and its enchanting wonderful brightness has been eviscerated from our enslaved minds. We are living in an oppressive/depressive western civilization which we still call 'democracy' - because our twisted, manipulated comfort-loving minds do not want to admit that we are enslaved, that real democracy no longer exists. Today we live in a Kleptocracy which allows the few to continue stealing enslaving and murdering.

This is the slavery of 2017 - and perhaps many more years to come if we do not wake up soon.

Positive culture is massacred, language is synthesized, we have been integrated as subjects into an imposed culture of lies and hopelessness, but we are taught that we are free -- give an ant's brain a break!

Independent thinking has become a crime, as it impedes the advancement of slavery. Education is designed to kill individual thinking and a wide range of inventiveness because it's dangerous for those who enslave and control us. 'New-speak' education is to serve the system and make us conform to predetermined thought patterns. That's what western education has become in the last 50 years - a farce to keep us as non-thinking slave, idiots.

Idiots are easily enslaved and exploited and sent to wars - to steal foreign resources to satisfy the greed of a few. We love to be cannon fodder as we are told we are heroes not enslaved, brainwashed idiots dying for the profit of a few, are we really any better than marionettes?

Wake from your slave status - make 2017 the last year of slavery!
