

For Fuck's Sake are WE Pathetic or What?

by jason *Saturday, May 6 2017, 11:09pm*

international / prose / post

You needn't be clairvoyant to realise the Truth of the US planning a pre-emptive nuclear strike on Russia and China, it's in our comatose faces on a DAILY basis. The thoroughly insane neocons, *"what's the point of having nuclear weapons if you don't use them,"* that control Washington and ALL modern presidents, are preparing NOW, it's self-evident if you have the eyes to SEE. Neocon doctrine (PNAC) openly published for the world to see, espouses "Pax-Americana," which means lordship over all nations. It states openly that any nation that "could" challenge US hegemony must be thwarted, and today only two nations are able to resist successfully this perverse plan, Russia and China!

A previous post to this site considered the possibility of a nuclear confrontation between superpowers and arrived at the conclusion that pre-emption is a MUST if 'victory' is possible. Now if an astute civilian commentator is able to see the obvious, do you imagine that national leaders are not aware of same, indeed they are, and so the most aggressive nation on earth is now preparing for just that attack, WHILE WE SIT BACK AND WATCH, for Christ's sake!

I am scarcely able to believe the prevailing global social paralysis, in full view of open public statements by neocons that they are willing and ready to use nuclear weapons in pursuit of their INSANE aims of world domination -- history notes that everyone that pursues such dooms themselves in the end, but has that FACT, recorded numerous times since recorded history began, deterred neocons? Not a chance, power intoxicated lunatics are what they, to be expected BUT the global masses -- the most powerful social force on the planet -- sitting back with their thumbs up their arses truly shocks any thinking person, in full view of the prevailing evidence, look it up yourselves you useless bastards, there's plenty on this site notwithstanding much more in the PUBLIC DOMAIN!

Would we truly allow a tiny minority of self-interested LUNATICS to REALISE their insane plan? It certainly looks that way!

Well, the FACT remains that the future of humanity rests in humanity's hands NOT the hands of a few lunatics, and so if we fail to act to prevent the obvious insanity -- no-one wins nuclear wars -- we doom ourselves, that SIMPLE! That is the hard reality that few seem to be aware of.

The persistent election of liars and frauds to positions of power is symptomatic of a universal APATHY plague, I mean if your own lives mean nothing to you then you are lost beyond redemption, but you would take me with you and I value this planet and my life, you fuckin' mesmerised, sleep-walking, mindless morons. But I am forced to apprehend the REAL not the feeble transparent sewage that issues from the privately owned and CFR controlled mass media. So it seems that, in deference to mindless mass slavery and the lack of ACTION from the masses, the least of which would be refusing to be led by liars, cheats and thorough incompetents -- Trump barely knows what political day it is, he has been intimidated/reduced to a neocon puppet because he has no heart -- has he drained the swamp? NO, the swamp has drained him of all self-respect and integrity, not that he had much before the presidency, what a thorough COWARD he truly is SEEN TO BE TODAY; Trump has inherited the executive powers of an emperor but is unable to make his mark, as is the case of so

many other democratic leaders of American vassal states -- so I would be forced to act because I refuse to die like a slave or a sheep, it simply is not in my blood to go down like a cowardly dog without fighting back.

Now MORONS, do you understand how a pre-emptive strike works? Of course not, you can barely spell your names, so for your information, you won't hear about it on the 'news,' as pre-emption requires SURPRISE, the war will be over in half an hour max, from beginning to END and you, if you haven't been instantly vaporised would watch your flesh falling from your bones, there would be nothing to eat or drink as everything would have been irradiated and you would all die horrible excruciating deaths while the lunatics that instigated Armageddon take shelter in their five star nuclear shelters -- AND YOU'RE NOT INVITED because YOU are EXPENDABLE, that's what they REALLY think of you, so either wake the fuck up and survive or receive your just 'reward.'

Fair fuckin' dinkum, I cannot believe how thoroughly useless the global masses of today are -- it is your elected puppet leaders and those that control them that are the REAL ENEMY, you mindless clowns, so why continue to be led by them to the slaughter? God if he/she exists, only knows!
