I could scarcely believe I was reading an overt, disgracefully unbalanced propaganda piece from Australia's ABC, which 'tragic,' for the reporters, story more typically issues from the Murdoch press.

The story, linked below, infers that China is a major threat to Australian sovereignty when in fact another nation takes that dubious 'honour,' indisputable reasons explained as I proceed.

However, first take the time to read that disgraceful ABC piece before you continue, and remember that the issue is Australian sovereignty and threats to it.

Okay, now you are fully briefed and probably wondering why the ABC story is deemed offensive by me, a true blue patriot.

Allow me to offer irrevocable PROOF, of the greatest threats to our sovereignty, within and outside the country.

The nation that most clearly threatens Oz sovereignty, is NOT China, it's the war mongering USA, as is easily seen by two major events: first, Washington puppet, Paul Keating's surrender of our sovereign currency to Wall Street speculators, which was an outrageous act of treason, as once a nation loses control of the VALUE of its currency, now determined by Wall Street ROGUES, it loses economic sovereignty, plain to see. I would add here that China's meteoric economic rise has largely been attributed to the management of the value of its currency, which has set the U.S. screaming because they (Wall Street mega-bankers) cannot manipulate the value of the YUAN.

China, unlike Australia, is acutely aware that its huge production base would be jeopardised if it was unable to compete on world markets and so it adjusts the value of its currency as required -- a moron, even in ASIO, should be able to understand that. Hence China has REMAINED ultra-competitive in the global market, in spite of ALL America's (failed) efforts to economically enslave it, as it has done to most of the western world. So, the U.S. loses that one much to its chagrin, so now it is preparing for war with China, as the first option for America is always WAR, particularly against independent SOVEREIGN nations that refuse to kow-tow to Washington.

Maintaining control of the VALUE of currency is absolutely vital to the independence of any nation, as it has already been PROVEN that the mega-banks on Wall Street, which continually manipulate 'the market,' to its detriment but to their gain -- 2008 -- when their uncontrollable greed destroyed the global economy, which still has not recovered -- it currently only twitches on the mortuary table

due to 'QE,' which is irresponsibly printing more unpegged worthless paper money, which act is of course itself unsustainable hence America's machinations to resort to a 'controlled' nuclear war with Russia and China -- war WAS capitalism's previous solution for broken economies but that option is clearly insane today, though America CONTINUES to view war as viable, arrive at your own conclusions as to REAL threats to Australia.

Which leads me to possibly the greatest threat ever perpetrated on Australian sovereignty and our national security, Mr Duncan 'vacuum-head' Lewis, ASIO's chief clown!

Julia Gillard, without a MANDATE from the people, signed away the last vestiges of Oz sovereignty by allowing Australia to be militarily occupied by a foreign power IN PEACE TIME, which sell-out included making available to that nefarious, FOREIGN, war mongering power, all our vital sea ports and airfields, should that FOREIGN power deem their use necessary, forget asking Canberra's supine politicians, the U.S. has Gillard's treacherous signature. Now compare to what the ABC presents as threats from China, which in reality are no threats at all, as China is complying with all local laws and merely doing what any Australian corporation would do to gain influence politically.

It is laughable and shameful that any competent journalist would put their name to such a disgraceful biased and unbalanced piece of overt propaganda. Gillard should have been placed on trial after that clearly MONUMENTAL treasonous and traitorous act of subversion, AS NOW AUSTRALIA, INCLUDING ALL CAPITAL CITIES, ARE PRIMARY NUCLEAR TARGETS IN THE EVENT OF AN AMERICAN PROVOKED NUCLEAR WAR, FROM WHICH IT WOULD USE AUSTRALIA AS A CONVENIENT PLATFORM FROM WHICH TO ATTACK CHINA, and to hell with the consequences for the nation and PEOPLE after China is FORCED to retaliate!

I mean really, what are they smoking at the ABC these days? If you want threats to AUSTRALIA, they exist in your stupid faces. A little background and balanced reporting in future please, the Australian people are paying your bloody wages and THEY must be served by competence and INTEGRITY.
