

All Great Solutions are SIMPLE

Consider the terrorist threat for a moment. Do you imagine terrorist groups fall from the sky fully equipped, trained and supplied? Of course not! They are created. The ISIS group for instance was trained in Jordan by the CIA and supplied, of course, by U.S. ally, Wahhabi Saudi Arabia, which the world knows has an agenda to see that all moderate sane Muslims are reduced to fanatical fundamentalism. And so we had the western mass media present us with this group complete with arms, munitions, a fleet of new Toyota trucks and a U.S. lackey leader wearing a Rolex -- for analysts this jack-in-box presentation of a fully formed terrorist group presented no mysteries. Simple research revealed it was created and supplied by the USA and Saudi Arabia, all of which information is now freely available in the public domain.

Now what does that reality suggest? Of course, these groups are created and supported, which reduces to SUPPLY -- and so, how do we eliminate this threat? STOP SUPPLY, simple. I would add that the house of Saud is the vilest, most backward, violent monarchy on the planet (no secret) as are murdering and drug dealing, American agencies. Do your OWN research if you doubt these easily verifiable facts.

So if we wish to eliminate these these groups then strike at the ROOT, not thrash around fighting the leaves and branches, simple.

Now consider the appalling reality that world leaders today do not represent the people they are obliged and duty-bound to SERVE, I hardly need prove the point. No nation on earth could boast a real representative leader today. They are all CORRUPT and serve minority elite interests and themselves. The solution of course is obvious, when dealing with KNOWN unrepresentative corrupt governments, DEMAND representation. Note that most (elite serving) policies legislated in recent history do not have a MANDATE from the people, and so the people have the inalienable RIGHT to make demands and/or REMOVE those clearly corrupt, duplicitous, criminal governments by popular choice and sheer force of NUMBERS -- for the PEOPLE it's always a matter of CHOICE as the PEOPLE remain the most powerful social force in any nation. It is absurd to see a handful of corrupt criminals lord over millions of angry and disillusioned citizens, think about that reality for a moment. It really is as easy as stepping on a cockroach if YOU make the decision to ACT, which action should be as easy as the current status quo promises ever more SUBJECTION and inequity.

Need I prove that the vast majority today realise they are constantly being lied to and shafted by their leaders?

Now, I'm not a magician, I cannot click my fingers and make everything right, but I am sure ABLE, as a specialist analyst, to reveal simple, proven and EFFECTIVE strategies which would do so. The rest is up to you. But do not dare complain if you fail to take action and easily REMEDY the social problems we all face today, as you would have NO EXCUSES and only have yourselves to blame, FACT!
