All western governments today are UN-representative of the majority, politicians lie to gain office/power then renege on the most important promises -- the latest FRAUD being Trump, who backflipped on jailing Clinton, 'draining the Washington swamp,' and establishing civil relations with Russia to fight the scourge of terrorism, which groups are EASILY defeated by cutting supply and prosecuting the nations known to be supporting terrorists groups and using them for political military purposes. Russia, China and the US working together are able to eliminate terrorist groups world-wide, simple -- they all share that enemy!

We need not pursue this point as everyone barring lobotomised morons, is already aware that their governments engage in illegal wars and mass murder for the profits of the few.

To think that the USA has spent trillions of dollars on wars over the past two decades while neglecting its own nation's needs is scandalous; infrastructure rots and social services have been cut to the bone marrow BUT war always gets whatever amount of money it demands.

Millions of children around the globe suffer hardship, abuse and starvation, mostly as a result of western illegal military interventions and corporate exploitation of resources -- no secret. But consider the callous disregard and lack of funds for our own children, yes, I'm talking of every innocent child on the planet. We are one human family and divisive religion, ideology, nationalism shall never alter that fact.

Now you may ask, why do western governments prefer war over OUR urgent humanitarian and national/social needs? The answer shouldn't surprise, a handful of mega-wealthy interests orchestrate all the social troubles and wars we face today all for the 'noble' pursuit of filthy money. It also doesn't take much thought to realise that the people never see justice, equality and fair play. We shouldn't expect any, as the minority interests referred to above care less for anything but their profits.

No national majority on this planet desires war yet unnecessary, illegal wars have been a permanent feature of the 21st century. So how is this so?

Now the answer to that should be clear as it's obvious -- WE ALLOW POLITICIANS/GOVERNMENTS TO LIE AND COMMIT THE CRIMES WE WITNESS DAILY -- and that brings me to the last point, "FOOLS!" Who could they be?

THIS is the REAL DAILY NEWS, how ever it is dressed to either distract, mislead or LIE.
