

## Rogue State Agencies and Institutions

Democratic States are designed to serve the people, the MAJORITY, and all associated State agencies and institutions should defer to the democratically elected leaders of State who represent the PEOPLE. However, that situation is so far from the current reality and prevailing circumstances that it presents as an absurd tragedy or grotesque travesty! A good case in point is the KNOWN drug dealing and murdering CIA, which, after JFK threatened its structural existence, decided to become autonomous.

The very first requisite for autonomy is independent financial means and the quickest method of accruing vast sums of money is dealing in commodities, especially illegal commodities (drugs) that are easy to produce and distribute.

It is no coincidence that major drug production follows all large scale American wars like a bad smell, Indo-China/Vietnam and Afghanistan are brazen examples of CIA involvement in large scale drug production; indeed the CIA is today the world's largest drug dealing organisation, who else has carte blanche and answers to no-one? Research and verify it for yourselves, an abundance of evidence exists in the public domain!

We should also note that many KNOWN smaller drug dealing criminal terrorist organisations such as the KLA in Kosovo and ultra-right wing fascist groups in Latin America have worked in partnership with the CIA for decades, though that information is only now becoming widely known.

Now consider all the overt and covert operations of the CIA and the sordid criminals -- al-Qaeda in Libya and Syria -- with which it does 'business' and no doubts remain as to its TRUE criminal status as a rogue State entity.

Today CIA involvement in the heroin and cocaine trade is at an all time high, as is its involvement with fascist (fundamentalist) criminal paramilitary groups and organisations necessary to secure drug production in major drug producing areas.

I would now draw your attention to the FACT that it is OUR kids and OUR brothers and sisters dying from drug addiction/abuse. Drug production and availability today are at historical high levels world wide. It is OUR lives that are RUINED by the criminal activities of the CIA and its KNOWN criminal partners -- such are the consequences of allowing non-representative leaders to occupy high office!

Which brings me to a crucial point, understand that the CIA cannot operate without the cooperation and consent of government and the only way a wealthy, large and powerful criminal organisation can survive is to work with other criminals -- get the picture?

Now ask yourselves who among the many members of government in any western democracy questions and calls to account the activities of its so-called 'intelligence' agencies? If these groups (NSA included) are allowed to operate without oversight or full accountability they would soon degenerate into lawless, criminal organisations, as is abundantly clear with today's CIA!

Over the past few decades MORAL, representative government in western 'democracies' has virtually been eradicated by organised State and non-State criminals, which include Wall St., Banksters, Corporatists and the rogue State agencies in their employ -- that should be obvious to all!

The remedy is of course simple and readily available -- BOYCOTT ALL MAJOR bought PARTIES and ONLY VOTE REPRESENTATIVE LEADERS into office!

***Restore all our democracies by electing leaders that champion the interests of the PEOPLE***

-- never allow yourselves be herded into choosing between two selected and owned candidates again. The last presidential 'election' in the USA was pure farce and an insult to the people, whose interests have CLEARLY been sacrificed for the benefit of wealthy organised State and non-State criminals.

The sooner we the people face the fact that we are responsible for the current state of our respective nations the sooner we will awake to the realisation that we are able to exercise OUR prerogatives and RESTORE ALL OUR DEMOCRACIES WORLD-WIDE. Everyone is answerable!
