

## Useful Idiots and co-opted 'Hackers'

by kaye Sunday, Dec 9 2012, 1:04am

international / prose / post

After the FBI infiltrated, arrested and placed on trial the naive vanguard of REAL Anonymous and Anti-Sec hackers, what has SINCE emerged from these groups is a bunch of CIA/FBI hackers wearing masks. Mission accomplished, ANONYMOUS has been co-opted. You will note that WikiLeaks' recent material has all been supplied by this 'new' group of government hackers. Assange's credentials speak very loudly for themselves, as we will highlight.

No-one receives the amount of media attention Assange received (saturation) without CFR approval - fact! No matter how BIG a story, if it doesn't suit the CFR it will be omitted, backgrounded or covered in the most fleeting manner. Assange was/is a useful idiot (or worse a complicit participant) in this regard.

Any unfortunate person that suffers from 'Narcissistic Personality Disorder,' (NPD) which usually manifests as 'control freaking' and seeking attention/admiration, among other give-away symptoms, is a prime candidate for the 'man;' most puppet politicians today suffer from this disorder in varying degrees and they have all proven to be extremely useful to the man!

Assange is a textbook case and consequently WAS extremely useful for ferreting out people the man wished to identify, but of course that tactic failed to a large extent as most elite hackers are smart people and NEVER break cover, if hacking has any rules anonymity is the imperative for serious, EFFECTIVE hackers.

However, the most damning evidence indicating that things are not quite right with Assange is his RECORDED position on 9/11 -- Assange ACCEPTS the US government's feeble explanation of events, which a battery of highly qualified experts and professionals reject. Physicists, metallurgists, structural engineers, architects, demolitions experts and firemen with years of experience know a 'little' about such things and types like Assange, the CIA, FBI and the new Anonymous should stick to their sordid clandestine activities/obsessions.

It is known that the original WikiLeaks crew, which included a real hacking genius -- who, I would add, insisted on personal anonymity -- have abandoned Assange due to his intolerable megalomaniacal behaviour and warped world view/ideology.

The Wiki Leaks information void was largely filled by hackers from this new ANONYMOUS group, as is widely known today. It was they who hacked the databases of Middle Eastern nations the USA wished to destabilise and replace with their own puppet regimes, hmmm!

Today's 'Anonymous,' is NOW a working front for the CIA, FBI and USAF -- especially since most of the original ANON and ANTI-SEC crew are all facing trial. So 'today's' ANONYMOUS became the focus of attention for many political analysts, social commentators and reformist tacticians!

I recently stumbled on this EXTREMELY REVEALING video from today's ANONYMOUS; now bear in mind the MANY US mass murderers and war criminals at large today, which this new ANONYMOUS group IGNORES, and take stock of who they decided to attack -- two insignificant, fuckwit Australian DJs involved in the 'royal pregnancy' prank and subsequent nurse suicide debacle!

While watching this PATHETIC distraction/justification/diversion video, bear in mind the MANY REAL war and other criminals enjoying their freedom because they are ignored or protected from compromising questions from investigative journalists and pressure groups -- GIVE the world a break with this 'new' government 'ANONYMOUS!' We'll see how long Bilderberg Google or other government forces take before removing this incredibly compromising video:

A final word -- if you hope to succeed as a semblance of the 'real' ANON, target REAL CRIMINALS and EXPOSE the REAL issues, you lame, inept, cowardly pricks -- there certainly is no shortage of GOOD material!
