

The Deep State's Criminal Disregard for the Lives of Foreigners now Extends to Americans

by sal *Friday, Sep 1 2017, 11:44am*

international / prose / post

The information in the following Youtube video should come as no surprise to any intelligent person, as the deep state's track record is one of death, war and destruction with no regard whatsoever for innocent human life. NOW those criminal habits have come home.to plague the American people and nation.

When will Americans ever learn? It always comes home to roost. Good luck doodles and be careful what you drink as there is no way of knowing which corporate water based products are poisonous.
