

'All You Need Is Nukes ...'

Indeed, nukes are all you need to maintain sovereignty and FREEDOM from interfering enslaving nuclear powers, particularly America. Kim Jong-Un, has proven it without blinking an eye, even the demented US population understands. Kim has called every bluff the thieving, culture/nation-destroying enslaving yanks have attempted to throw at him. Consider for a moment, how Iraq, Libya, Syria, Yugoslavia etc would have fared had they been nuclear armed. A cogent LESSON for ALL nations.

But to finish the lyrics:

All you need is nukes, nukes, nukes are all you need,
to protect your freedoms, nation and culture against the vile, mass murdering, thieving Americans
and their stinking vassal (slave) allies, ta dah!

Now consider which underdeveloped nations are nuclear armed; Pakistan and India, to name two,
there's a lesson in all this that freedom loving nations can ill-afford to ignore.

And as we should ALL know today going nuclear is relatively simple, the technology has been around
for over half a century.

However, surely the sane and practical alternative approach is for the sane, law-abiding WORLD to
deal effectively with the world's leading civilian killing, therefore by definition, terrorist, rogue,
CRIMINAL nation, the USA. So make your choice, go nuclear or CONTAIN the LAWLESS mass
murdering USA, simple!
