

The Solution is SIMPLE

Today people are faced with the utter ruin of democratic rights, liberties and freedoms in the western world, but particularly in America, which is the LEAST of all so-called democratic nations, as is clearly evident -- America is clearly an authoritarian police/military state, where the policies of unrepresentative elites are IMPOSED on the people that tremble in fear of their unrepresentative oppressors/overlords. A far cry from real democratic REPRESENTATION. Indeed, 'democracy' today is a pathetic joke, as all we see is master-slave IMPOSITIONS.

Politicians lie through their teeth to gain office then immediately sell out the majority that placed them in power, who here is at fault, a lying duplicitous cheat or the fools that continue to fall for the same failed system?

I need not dwell on demonstrating that no nation on earth is a viable democracy as all so-called 'free' elections are staged events and the people are always the losers. So straight to the point, A CURE!

I recall when former treasonous Oz PM, Julia Gillard, signed our sovereignty over to the USA in one fell signatory process, which allowed the war mongering USA to utilise all our strategic sea ports, airfields and any other 'useful gift' for their own sinister purposes; in fact today Australia is permanently occupied by American military forces as were former imperial colonies of the past.

No Australian voted for this (vassal) outcome, in fact Gillard's treachery which is always kept out of the Oz mass media has made ALL Australian capital cities PRIMARY NUCLEAR TRAGETS in the sure event that America launches a strike on China, Russia or any other nuclear power. Now note, Australia was NOT a primary nuclear target prior to the 'leadership' of Julia Gillard, who must and should stand trial for her treasonous treachery along with John Howard for lying us into a criminal war and Paul Keating for deregulating the banks and surrendering our national currency to Wall Street rogues. The sellout is complete, total vassalage economically and politically -- AND NO-ONE VOTED FOR THIS OUTRAGEOUS OUTCOME, which threatens the lives of almost the entire population of only 23 million souls -- the very LAST thing Oz needed was to become a primary nuclear target in the event of an AMERICAN provoked war, a favourite pass-time for America.

So Australia today faces total obliteration of its capital cities but not its interior where all our resource wealth is located. It almost seems arranged but for the fact that our leaders did not and DO NOT today represent the wishes of the people.

Now comes the clincher for all so-called democratic nations; when Gillard was questioned in the media about her signatory treason, she responded quite blithely, to paraphrase, 'I was elected to lead, and I exercised that prerogative.' And there it is, but I do not expect the majority to have woken to the obvious fact, that democracy is not about leadership or impositions it's about, R-E-P-R-E-S-E-N-T-A-T-I-O-N -- are we getting it now? DEMOCRACY WAS NEVER ABOUT LEADERS AND FOLLOWERS?

The major reason things never change is that viable alternatives to fake democracies are never presented to the enslaved public, particularly simple and effective solutions/alternatives. However, once the notion of REPRESENTATION IS FULLY UNDERSTOOD, everything changes, as representatives do not 'lead' they implement the policies of the majority that placed them responsibly in REPRESENTATIVE roles. Neither are there any subservient followers, as of course no leaders exist to screw or impose on the people. Representatives are NOT leaders they are SERVANTS of the people and as such, if they fail in their allotted tasks they are removed by popular DEMAND from their positions as servants of the people. This is the surest CURE for ALL fake democracies, all one need remember is that followers and leaders are anathema to REAL democracy, we are all in fact politically EQUAL citizens invested with certain tasks and to fulfil social roles and the responsibility to enforce and maintain our democratic rights and privileges.

So there it is, all great solutions are SIMPLE. As this alternative to the current utterly destructive SLAVE-MASTER status quo would prevent wars not deemed necessary by the people and all manner of INJUSTICES the WORLD suffers today. It only requires the democratic majority to IMPLEMENT this sure-fire cure and enshrine it into LAW the breach of which would be punishable by death.

Whether or not the masses are ready for this obvious revolutionary, simple, non-violent CHANGE is not an issue, as it MUST be realised if we intend to survive in a free and just political system/WORLD. Though it is inevitable that elites currently in (stolen) power would fight such change to the death, a good solution for the criminals that now hold sway over all nations and freedom loving people everywhere.

Burn it into your media-washed minds -- no leaders and no followers, only REPRESENTATIVES. How really simple AND HUGELY EFFECTIVE is that most viable option?
