

JFK and 9/11 -- A Time of Reckoning

The recently released, heavily redacted files withheld from the public for over half a century relating to the JFK assassination by the deep state, proves unquestionably that Donald Trump, the man (coward) that boasted he would "drain the Washington swamp," is a TRAITOR, to both the nation and the American people.

Trump accepted excuses from clearly criminally complicit deep state agencies that certain information, after 50 years mind you, could not be released to the public -- give the American people and the world a break! Has it occurred to any of these agencies that in a democracy government answers to the PEOPLE? Obviously not, as this latest cover-up clearly indicates.

The Kennedy assassination was planned and executed by the deep state, of this there is no doubt as the cover-up was/is maintained by the same agencies, which, as is clear, imagine they do not answer to anyone, which outrageous fact proves not only that braggart, full of shit, Trump is not only a wimp but also a traitor. The American PEOPLE not only deserve to KNOW they DEMAND to KNOW THE TRUTH. Which continues to be hidden by the interests that now fear for their reputations and some, possibly, for their stinking traitorous and treacherous lives.

The surgeon that treated Kennedy, with numerous other medical staff, stated clearly, on record, that the fatal bullet that killed Kennedy entered from the front of the skull, as independent video footage suggests, and exited at the back of the skull taking a huge portion of the skull and brain with it. We need not delve into the "magic bullet theory," a bullet was produced in "pristine condition" which was purportedly the fatal projectile, rubbish, as anyone with half a brain would tell you! Furthermore, the absurd rudimentary cut and paste photograph of Lee Harvey Oswald, with holstered pistol and holding the rifle purported to be the assassination weapon, has been proven, with the digital analytic technology available today, to be a CRUDE FAKE. We do not need the evidence in circulation of the shooter/s from the grassy knoll, which again, digital analysis has revealed -- so why not come clean deep state, you are unsuccessfully attempting to hide an elephant in a toilet cubicle? A rhetorical question, as every thinking person has become aware over the past 50 years, that Kennedy's murder was an inside job and that the deep state is RESPONSIBLE.

Now let's digest that proven REALITY and the continuing outrageous cover-up, which involves the current good-for-nothing PUPPET president. Reality dictates that there exists an organized group that is above and beyond the law that has the power to kill elected presidents WITH IMPUNITY, as is clear today with the CONTINUATION of the gross, though transparent cover-up.

I need not continue, as the TRUTH is as clear as the sky on a cloudless day -- the point is that this STATE CRIME and the inside job of 9/11, also proven by countless experts and specialists to also be an inside job -- both government stories of events have been proven absurd and defy natural laws of physics and other scientific disciplines -- MUST NOT GO UNPUNISHED. The people, as previously stated, HAVE A RIGHT TO KNOW, regardless of costs to the criminal and clearly heinous deep state.

Donald Trump, the LYING, treasonous, traitorous, full of shit (proven) braggart dunce, now completely captured by the deep state, has no credibility whatsoever TODAY, capice, Mr Steve Bannon, you are backing a LOSER and risk going down with him, plain to see?

So the screaming question remains, do WE THE PEOPLE continue to tolerate elite, CRIMINAL rule or do we DO something to restore our nation and the integrity of representative democratic government, now proven to be completely HIJACKED by nefarious CRIMINALS and spineless puppet administrations?
