### **To all our mailout and other subscribers.**

As most people are aware the powers have recently embarked on censorship strategies to background and silence all dissenting voices on the internet, of course using feeble excuses like 'spam filtering' and 'fake news.' Which strategies amount to censorship of any information that opposes mainstream propaganda.

As a result of these totalitarian 1984 strategies our mailouts and other broadcast services/newsletters have recently been relegated to 'spam' status by the 'regulators' and their 'mindless, but selective algorithms.'

If you have not received our usual mailouts and other broadcast information please check your email junk and spam folders and re-assign those emails to 'not spam/junk' etc. It is also advised to regularly check these folders as algorithms overrule personal choices.

These new big brother strategies are not surprising, however, all freedom loving people must now become more pro-active and vigilant, as big brother's methods are purpose designed and built, though not yet total in their reach; many internet providers have chosen to refuse broadcast of legitimate emails, which will cost them dearly. We have therefore alerted you to the devolution of the free flow of legitimate information on the internet, and warn that it would only get worse if we all fail to act to preserve our freedom of choice and other inalienable "freedoms/liberties and rights", which words the powers view as threatening.

We wish to thank you all for your continuing support, without which this and other alternative sites would fade into the background at best, or be eliminated from the 'open' internet at worst.

With your active support and assistance we would continue to do our utmost to inform as many people as possible of invaluable information and other creative productions like poetry, which many readers support. Your active support to combat the 'new' censorship would be as easy as linking our articles and poems to friends and others that could benefit and enjoy this material, particularly via social media and your email contacts.

We would hope that these methods would help neutralise big brother's strategies to date.

Again, thank you ALL for your ongoing support and Peace to everyone,
