Right on queue. Trump's new 'foreign agent' hysteria has recently infected 'sovereign' Australia, puppet PM Turnbull and his knee-walking conservative colonial government have rushed it through parliament; a headline in the Melbourne [Age](#) reads, "*Foreign interference laws: Paul Keating may have to [register] declare as foreign agent.*" Well, there ya go, America's presidential INSANITY has made its way to Australia via the Washington serving foreign agent, Libs.

AT George Brandis and PM Malcolm Turnbull, two traitorous, lackey clowns

Now think for a minute ALL Aussies, which FOREIGN nation exercises the most influence over Australia, AMERICA of course, to the point that it (CIA) actively ousted a legitimate democratically elected AUSTRALIAN Prime Minister, Gough Whitlam, which this foreign power (USA) did not approve of. The scandal even made it to Hollywood in a movie titled, "[The Falcon and the Snowman](#)," so obvious and crude was this grossly illegal 'INTERFERENCE' from a FOREIGN power working in its own --- definitely not Australia's -- best interests!

So there you have it, few have realised the two-edged nature of this law if applied stringently, according to the advice of legal advocates.

Therefore, it's not only Keating that would be required to register, its Turnbull and his entire lackey government. Fair dinkum, the mindlessness of Aussie conservative governments is breathtaking. Furthermore, should we now place former PM and obvious US agent, John Howard, on trial for treason and war crimes after he LIED Australia into an illegal, CRIMINAL war at Washington's behest? Short answer, definitely, YES before that treasonous, guilty as sin, rodent dies! So let's make this law retrospective, shall we?

However, treason is not the sole 'agency' of the conservatives; the Australian Labor Party matches them point for point. It was Paul Keating who surrendered our financial sovereignty (currency) to Wall Street speculators and deregulated blood-sucking BANKS; it was overwhelmed school girl Labor PM Gillard that allowed the USA to (militarily) and PERMANENTLY occupy Oz and utilise all our ports, airfields, or whatever else it liked for its war mongering purposes, which treasonous action has 'lifted' once neutral Australia to PRIMARY NUCLEAR TARGET STATUS in the event of an

American provoked war with China. And which nation today specialises in unnecessary criminal wars? America of course, 'good' work Labor Party!

Now tell me Australia, is it really in this nation's best interests to forego its neutrality for the sake of treasonous Major Party foreign agents? Clearly not, so let's round up all the treasonous traitors, past and present, and place them on trial for serving the interests of foreign powers, to the very great expence of Australia and its people.

If unique Australia and its population truly wish to remain independent and SOVEREIGN, we must apply these laws broadly and apply them to every US lackey politician in Canberra, which, as we should know, would end the existence of both major LACKEY parties.

Foreign agents! Oz is rotten with them.

Vote for major parties at your own risk Australia; both spineless and corrupt major parties are rotten to their treasonous core.

Australia is in desperate need of BRAVE, patriotic and visionary leadership that would declare Australia neutral, and with the cooperative consent of the entire group of South Pacific nations declare a nuclear free and NEUTRAL zone. Australia should never invite nuclear destruction unnecessarily, as both treasonous and bereft major parties have done and would continue to do, as they are ALL born lackeys/agents of foreign powers and despicable cowardly TRAITORS.
