

War Solves Nothing for the Masses!

by jaxie Sunday, Dec 24 2017, 9:26pm

international / prose / post

The proof of the title is that after the war to end ALL wars, WWI, we had WWII, a tragic consequence of moral bankruptcy and erroneous thinking; so let's analyse WWII, essentially a fight against fascist/totalitarian nations wishing to dominate the entire world via violent military means, sound familiar? So who really won WWII? Shallow thinkers immediately blurt, we did, the allied democratic nations of the world! It seems so except for the fact that those nations today have overtly become fascist/totalitarian, oppressive surveillance states, particularly the USA which was once the beacon of world democracy. So who really won WWII? THE FASCISTS, THAT'S WHO -- plain to see, or would you care to name just one representative Democracy in the world TODAY?

The USA is a shadow of its former post-revolutionary self; today it is completely captured by totalitarian forces in every sense of Orwell's Big Brother State, I need not elaborate as it's obvious. So what are the masses fed in these captured, hyper-surveillance states to maintain servitude and compliance to the big brother, imaginary, fabricated enemies, as in Orwell's novel 1984 -- fascist states cannot exist without defining themselves in binary terms, against the 'other', we are good, they are evil, they have no God, but God is on our side, etc, etc. So let's analyse the God myth briefly, though all other binary oppositions fall victim to the same analysis, thank you, Levi-Strauss and Derrida.

God, ay! If you have the ability, which I doubt, to research 'God' you would discover that man has created over 10,000 Gods since recorded history, which indicates the tragic insecurity of the species and its inability to take full responsibility for its existence. God doesn't create social realities, we do, notwithstanding myths are incapable of any action, you would notice that it is always man that Gods send to do their dirty errands, including genocide, stands to reason, as it is man that created all Gods -- the fact that religious texts are written in various cultural languages gives the game away, cultures create Gods not visa versa, in order to facilitate elite rule over ignorant, UNTHINKING hordes, as is evident today with unrepresentative minorities determining the course of nations, particularly evident in 'Deep State' ruled USA, with its puppet, buffoon, performing CLOWN president, fall guy. But fall guys are necessary to shield the elite forces that really rule.

Notice Trump's simplistic CURRENT rhetoric, though not a word during his election campaign, 'fire and fury,' WAR war, war, which fulfills the need of a (fabricated) ENEMY myth, do not forget that REALITY dictates that no nation is capable of successfully attacking the USA without also suffering the same fate, complete annihilation. So America is always careful to pick on weak nations that have no chance against it, a supremely cowardly tactic for the 'home of the brave,' another myth, simple schoolyard sensibilities detest a bully that always preys on the weak, hence such bullies are routinely defeated by the majority, which always defeat them and their servile spineless allies, if history is a reliable guide.

The WORLD will ONCE AGAIN FIGHT THE FASCIST SCOURGE AND DEFEAT IT, you can back it in, BUT let's hope it has learned its lesson and does not allow poisonous ideologies to transplant, take root, and destroy our freedoms AGAIN.

WARS, as has always been evident, serve ONLY the interests of the very few, which profit from same, care to research the huge companies and financiers that backed Hitler? They are the same in essence entities that rule America today, coincidence? Not likely!

"War, what is it good for? Absolutely NOTHING!" I write this as the totalitarian, fascist USA prepares to launch yet ANOTHER pre-emptive war on a weaker nation, the consequences of which would be unpredictable.

So morons, have a happy myth and lie-saturated, nose-ringed new year, and never forget that God is on YOUR side -- give the WORLD a fuckin' break, you yankee doodle dreamboats, OR reap the consequences of your MINDLESS, ILL-ADVISED, ACTIONS! Yay, Trump!
