Obama's FISA Searches on Trump Were Illegal

The 'memo' causing so much media hysteria and turmoil in Washington is a distillation of the material contents of a recently declassified court document, which states plainly that American regulatory and Intel agencies were functioning outside (breaking) the LAW. Of course this is no surprise to any aware citizen. Who could forget the now infamous statement of president Nixon when he appeared on national television in defense of his clearly criminal Watergate actions and declared, "when the president does it [commits a crime] it's not Illegal!" Well bunk to that absurd claim.

In a HEALTHY democracy, which does not exist in the USA, everyone is answerable to the MAJORITY, that is the PEOPLE that voted and installed the government. EVERYONE, including state leaders, is answerable, hence Nixon's forced resignation in disgrace soon after making that infamous, absurd statement. THE PUBLIC DEMANDED IT, IMPEACHMENT, do not forget that critical point.

Which leaves us today, in view of massive government irregularities/CRIMES, with what? A paralyzed, digitally and MEDIA enslaved compliant population that has tolerated and accepted the most intrusive and outrageous attacks on its rights and liberties for decades, of course due to lack of social awareness and direct participation in the democratic PROCESS. So what would come of these extremely compromising new revelations, which are far worse than Nixon's crimes, cognizant of the current social REALITY? Sweet fuck all, nothing!

While the people remain paralyzed and refuse to participate in the DEMOCRATIC PROCESS and protect THEIR INTERESTS and NATION, ROGUE regulatory, Intel agency, and other government crimes would PERSIST.

It was the American PEOPLE that demanded Nixon's resignation and that FORCE resulted in the REAL-IZATION of that demand as nothing is able to resist a national population seeking JUSTICE. However today, the American population has been reduced to a SPINELESS, quivering, USELESS jelly. And so it [crime in high places] continues unabated.

The American people, if they fail to protect their nation CLEARLY DESERVE what they get because, clearly the buck stops with them; THEY are directly and indirectly RESPONSIBLE (apathy and inaction) for ALL the crimes and failures of government and its institutions -- pure and simple!

External article from GP follows:

A legal report was released in April of 2017 that received no publicity until recently.

The report was a ruling on the results of an investigation or audit into FISA searches made by Obama's FBI and DOJ during Obama's time in office.

The report shows the FBI and DOJ participated in widespread criminal searches/spying on citizens and the criminal sharing of that illegally obtained data with non authorized entities outside government.

On April 26, 2017, an unsealed FISA Court Ruling unveiled a number of criminal activities that Barack Obama's FBI and DOJ participated in during his time in office. The report to date received little attention. Now interest is brewing due to the recent actions of Congress and the report [memo] that is expected to be released in upcoming weeks.

The FISA Court Ruling shows widespread abuse of the FISA mandate. According to the report, Obama's FBI and DOJ performed searches on Americans that were against their 4th Amendment rights. This went on for years. One paragraph in the report states that 85% of the Section 704 and 705(b) FISA searches made during this time were non-compliant with applicable laws and therefore criminal.

FISA 705 warrants deal with US citizens outside of the country.

In addition, the report cites that at the same time that Obama's DOJ and FBI were illegally searching [spying] on Americans against their rights and unbeknownst to them, Obama's FBI was providing this information to outside contractors who had no business, cause or legal claim to the information.

The level of corruption within Obama's FBI and DOJ is shocking. To date no one has been charged with crimes or is in jail as a result of the many crimes committed by this group of hoodlums.

Pdf of court report, upon which the much publicized 'memo' is based, is available below and it leaves nothing to the imagination regarding the CRIMINAL activities of agencies and high level government officials/departments:
