

The FBI, Banks and Occupy - Stating the Obvious as 'News'

by jan Tuesday, Jan 1 2013, 11:02am

international / prose / post

(Corporatists are also behind ALL the wars America wages -- ya kiddin' me!)

The US alternative media is in a righteous buzz 'now' that it's been (conveniently) revealed that Corporatists, Bankers, the FBI and other State regulators worked closely together to destroy the 'strawman' OWS movement, which they originally created to flush out dissidents and make a violent propaganda statement. FBI documents obtained under FOI are 'revealing' though they have been "heavily redacted," that adds credulity to an otherwise absurd revelation of the obvious, but only in (lobotomised) America.

Naomi Wolf

Notwithstanding that OTPOR/CANVAS was the primary planning force behind the 'spontaneous,' heavily publicised OWS 'movement,' that didn't 'move,' in fact it couldn't even 'Occupy Wall Street' -- it should never be forgotten that nothing receives international 'news' (propaganda) coverage unless it is approved by the CFR/Corporate mass media.

OTPOR or CANVAS is in the [Revolution BUSINESS](#) and their largest client to date is Washington! So it was very important they create a 'movement' that had no agenda, coherent strategy, consistent direction or organisational structure -- all of which happen to be the most important aspects of any successful movement or organisation! It took Occupy clowns hours to order lunch, as they were too scared to commit themselves to anything -- well done, OTPOR!

So we were dealing with an ineffective, PASSIVE, useful idiot, 'straw man' protest movement from the start, as distinct from the other successful colour revolutions/protest movements OTPOR fomented in numerous Slavic nations, the Middle East and North Africa -- Washington wanted real change in those nations!

THINK for a minute, no agenda, just an appealing 'catchy' name, 'Occupy Wall Street.' Mass media propulsion soon followed which catapulted this 'movement' all over the world but only for a very brief (useful to regulators) period -- how on earth was this movement supposed to achieve anything without an agenda or coherent STRATEGY? But that didn't occur to the GULLIBLE clowns that flocked to this mindless con, which included leftist intellectual and commentator, Mr Chris Hedges!

Now feast your eyes on the latest 'revelation' relating to its demise, especially the opening *melodramatic*, B-movie script paragraph, written by 'alternative' writer, social commentator and

[cuntologist, Naomi Wolf](#) -- but please stay focused:

"It was more sophisticated than we had imagined: new documents show that the violent crackdown on Occupy last fall - so mystifying at the time - was not just coordinated at the level of the FBI, the Department of Homeland Security, and local police. The crackdown, which involved, as you may recall, violent arrests, group disruption, canister missiles to the skulls of protesters, people held in handcuffs so tight they were injured, people held in bondage till they were forced to wet or soil themselves - was coordinated with the big banks themselves."

Aside from the fact that it was common knowledge among social analysts and aware commentators that Corporatists and Bankers OWN western democracies, what's 'news?'

The strawman OWS movement was designed to flush out as many dumb dissidents as possible BUT also, which in my opinion was its primary purpose, to DEMONSTRATE new violent State responses to social resistance of any kind -- a progression on genital groping, if you like.

Now recall Occupy 'leaders' (yes, they existed) and spokespersons all declaring and imploring followers to remain PASSIVE at all times and not assert their rights or fight back even in circumstances of unwarranted violent oppression, when every mammalian survival fight instinct was triggered.

We had that infamous group of mindless clowns sitting passively while regulators sprayed them with mace at point blank range and just to be sure, they sprayed until the canister was empty -- I know a thing or two about history's successful revolutions and NONE, not even Gandhi's so-called peaceful revolution, were bloodless -- violence is intrinsic to ALL CHANGE, including making omelettes; successful social revolutions necessarily involve 'violence' of some kind -- FACT! But to be clear, not violence for violence's sake, it's consequential, responsive or reactionary, largely the result of RESISTING oppressive and murderous State forces unjustly resorting to unwarranted and extreme violence as a first option!

But let's not labour the point, the other crucial aspect to this 'timely' revelation of obvious Banker-FBI collusion is the new psychological State strategy of committing crimes and injustices in PLAIN SIGHT -- *"of course, if the president does it, it's legal!" -- Richard Nixon*

You may have noticed -- over the past DECADE -- the new elite approach to committing large scale crimes is to do it in plain sight, in fact, rub the public's passive noses in it in order to dis-empower, deject and neutralise any public response, after all, who would commit heinous crimes in plain sight unless the perpetrators were extremely powerful and were guaranteed impunity, Police, the Military and political leaders, for instance?

The next time you read that the 'sky is blue' in the American alternative or mainstream corporate media, remember the producers are not trained analysts or semioticians, they are unskilled fifth-rate fiction writers with an extremely superficial view of the world.

I can't wait for the next OBVIOUS 'revelation' from America -- how about the gross illegality of Drone warfare or the extra-judicial presidential 'kill list.' Ah, yes, in due course, timing is everything!

Don't forget to have a nice uncomplicated day consuming scripted 'realities,' you mindless American

morons!
