

Japan Ignores Oz government demand for whaling fleet to leave Oz Southern Waters

by baz *Friday, Feb 1 2013, 11:04pm*

international / prose / post

Supremely subservient and cowardly Gillard government is International laughing stock

Environment Minister Tony 'no balls' Burke, lodged an [official complaint](#) to Tokyo regarding Japanese whaling ships encroaching on Oz economic zone waters. The complaint, which no doubt was a huge source of mirth to the Japanese, was immediately and contemptuously ignored -- there is a price to pay for shameless cowardice and kowtowing to America's every criminal whim, including allowing US occupation forces on Australian sovereign soil.

Tony 'no balls' Burke

But the best (worst) is yet to come.

In response to Tokyo's public rebuttal the supremely servile and cowardly GILLARD GOVERNMENT, instead of mobilising the CAPABLE Australian Navy to do its job and protect our waters, has taken the characteristic spineless option and launched a 'legal challenge;' gee, I bet that's got the Japanese running scared!

For OUR honour's sake will the Oz air force just scramble a couple of fighter jets and launch a few guided missiles on Parliament House at the appropriate time and clean the lot of the treasonous scum from our sovereign soil.

Gillard might as well be sucking the Japanese PM's dick, as she did so well sucking Obama's in Washington -- while she was signing over FIVE full scale US military bases of occupation to the criminal yanks. I might add that it's HER prerogative to lick any arse she chooses BUT when she decides to take the nation down with her then it's every patriots DUTY to stop her by any means available. The universally reviled, treasonous, lying bitch has got to go!
