In view of all the pathological propaganda garbage depicting psychopaths as heroes and everything non-American as demonic that is issuing from the Corporate mass media and Hollywood these days, the question arises:

"Where are the movies about Dietrich Bonhoeffer, who was executed by the Nazis? About Nat Turner who led a slave uprising? About John Brown, who, in the words of David S. Reynolds' biography: 'Killed Slavery, Sparked the Civil War, and Seeded Civil Rights?'"

There is no shortage of stories and accounts of true moral heroes that fought for humanity; however, Hollywood and media barons have another very dark and sick agenda. Most people are awake to it!
