

The Tragic Truth

by dasha - Global Research *Monday, Apr 1 2013, 9:11am*

international / prose / post

Tragedy is complete ruin dressed in drama; truth is uncomfortable and confronting for the most part so the majority avoid it like the plague.

While we THE GLOBAL MORAL MAJORITY allow an extremely courageous young man to battle, single handed, the most powerful organised criminal organisation in the world today -- the US administration and its military Pentagon enforcing arm - ALONE, we have not only failed brave Bradley Manning, HERO of our time, we have failed ourselves, justice and CIVILISATION!

Almost the entire world is aware that George W Bush, Tony Blair and John Howard, the original coalition of willing CRIMINALS that invaded Iraq are reprehensible CRIMINALS. The result of the now infamous CRIMINAL action in Iraq is a ruined State, over ONE million innocent civilian dead and FIVE million displaced persons, which amounts to, for those that live in rabbit holes, the FIRST human HOLOCAUST of the 21st century.

Reputable publications such as The Lancet and prestigious Tertiary Institutions, Johns Hopkins, have established that over one million civilians have been slaughtered in Iraq in order for Transnational OIL companies to plunder the nation of its considerable OIL wealth; but it didn't stop there, as we know. THE GLOBAL MAJORITY sat back and witnessed the overt lies, feeble deceptions and flawed performances of three national leaders commit horrendous crimes without a demonstration of moral outrage, righteous indignation or demands for justice. If that cowardly behaviour isn't bad enough that same 'moral' majority allows a person that revealed war and other crimes to the world, to languish in jail and be placed on trial by the PROVEN criminal military he reported to the WORLD for war crimes - WHAT THE FUCK!

Allow me to state another uncomfortable truth, something we would all rather not face; HISTORY has recorded the TRUTH of the SHAMELESS COWARDICE of this GENERATION and none of us can live it down, FACT. However, we are able to redeem ourselves to an extent by supporting Bradley Manning's lone fight for JUSTICE. WE ARE ABLE to DEMAND that Pentagon war criminals are placed on trial and that Bradley Manning is released and compensated for the tortures and other injustices he has suffered while in extended pre-trial custody - that is how history would record events, which is in stark contrast to the criminally complicit corporate media's rendition of the facts.

Honestly, how can we allow, in view of all the compromising information now available, Bush, Blair and Howard to remain unpunished for their heinous crimes against humanity?

We note a push (see link) to support Bradley Manning's nomination for the Nobel peace prize - we would remind the world that Barack Obama, the drone war, kill list, president, is a recipient of that prize and we would state at this time that the nomination could well be a deflection away from the real issues, which are Pentagon war crimes, a farce of a trial and an overtly criminal US administration.
