

Shoreline

by quill *Thursday, Apr 18 2013, 10:14am*

international / poetry / post

the shore whispers tonight --
i wrap myself securely
in the warmth and safety
of the darkness

a child shuns
the light preferring
night and its soothing
softness

the sea invites
when unseen

sea rhythms --
hypnotic background sounds
to'ing and fro'ing
in sync with
the pulse of creation,
the throb of quiet delight
