is my soul stolen,  
mind mesmerised  
or do i eagerly surrender  
my spirit  
when i see you?

how dare u look like that,  
perfect visage and body,  
the envy of ancient greece  
and asia

pure outrage,  
as this world  
admits nothing perfect  
imperfection reigns  
in an imperfect world,  
what secret stealth brought u here  
to capture me,  
who or what sent u?

i have inquired of the Gods  
u are unknown to the pantheon  
even the oracle is mute  
regarding ur identity and origination;

have ur thighs, eyes  
breasts and cunt  
bewitched all heaven  
and earth?

only hell's demons  
are able to sculpt  
a form such as urs,  
one glance and entire armies  
become subject

how impudent,  
fortunately u are  
only a product of my  
imagination,  
a convenience  
that i use to superimpose

onto the imperfect girls  
of this world
