

Time 2

the great slayer by reputation
yet chronos
is no more real
than a dream

time is vanquished
by the continuity of existence
the progression of experience
and the endless sway
of imploding-exploding
presence

where is time now?
find it if u are able
the past or future
we are all locked forever
in the NOW

every experience is now
eating, shitting, fucking are now;
every joy, ecstasy and sorry is NOW
people live and die only in the now

try fucking yesterday or tomorrow
to test ur disbelief

some things are created
for the sake
of convenience
time is an illusion
an evil oscillation in a
magician's box
slavery by any other name

time enslaves
yet it does not exist
so what is it that enslaves?
ur blind faith and obedience
perhaps
maybe ur perverse adherence
to another's need, regulation

a servile drone
masquerading as
a free being

i was dead before i was born
and dead before i was alive
i was before i was not

I AM THAT I AM
(continuous
Truth)

so who or what are YOU,
slave or free,
conquerer or conquered?

culture is an amalgam
of LIES that only slaves believe --
time has no more
intrinsic reality
than money has
any real value
