USA: Indisputably Terrorist

That 'pre-emptive warfare' is illegal; 'regime change' is illegal; 'supporting terrorists' (al-Qaeda, KLA) is illegal; invading and occupying sovereign States is illegal; civilian killing Drone warfare is illegal; stealing another nation's wealth/resources is illegal; political assassinations are illegal; indefinite detention without charge or trial is illegal; extraordinary rendition is illegal; torture is illegal; unjustified surveillance and searches are illegal -- add to this list yourselves, the above was just off the top of my head.

Question: Which nation and its leaders are guilty of all the above crimes?

Answer: America!

That is hard reality -- now go back to bed America, Wall St criminals and their criminally corrupt puppet politicians are taking 'good ' care of you!
