

## The Reason

Have you ever asked yourself why America indiscriminately slaughters MILLIONS of innocent people (carpet bombing, Indo-China) or has secret mafia kill lists, or conducts illegal Drone warfare that murders and maims women and children, or denies nations (Iraq) medical supplies that result in needless deaths -- 500,000 innocent children?

This homicidal INSANITY is committed in the name of monetary PROFIT! Like you I was expecting a nobler cause but tragically none exists outside propaganda mills. All the mayhem, destruction and MURDER is committed for stinking profit, filthy MONEY! And who do you suppose benefits? Less than 1% of 1% of American society!

It would be supremely logical to rid America of this minority social scourge before it attracts a devastating retaliatory response, which is inevitable. Governments that serve Wall St and mega-corporations do not represent the majority of American people. It couldn't be made plainer.
