international / poetry / post

(you'll never know)

at that moment
between creation
and destruction
machine, man
roar as one
blinding speed
wind cutting face
engine screaming

verging on instant
death Life accentuated
to the extreme
mind aware,
flashing diamonds
shattering ice
breaking sound
burning white
light

life on the edge
frightening
challenging

i fuckin' luv it

scintillating Perfection

catch me if u can

🔊 [I will follow him - Little Peggy March](#)
