Godchild, Child god Lord Siva Om Namo Sivaya

God manifests in children of that there is no doubt, what manner of evil would then target and kill an innocent child?

a criminal US president, a white man in black skin, Obama launches Drones for his evil masters killing women, children, assaulting every civilised and moral code of conduct known to humanity

Obama makes a mockery of the Hague and UN, of all Law and civilised convention - "you won't see it coming" he boasts - this criminal laughs, "I have predator drones, you won't see it coming" he threatens

but God is not mocked by a heinous homosexual, killer of children maimer of women polluter of all that is pure, a defiler of everything sacred

my little Godchild gazes annihilation approaches, Obama's fate is sealed.
