Prior to the most reviled PM in Oz history -- Juliar Gillard -- being kicked from office, this treasonous bitch signed over an unprecedented FIVE nuclear capable US bases on Oz soil; which effectively makes Oz a primary NUCLEAR target in the event of a US provoked conflict with China -- good work bitch! As a portend of things to come the stupid yanks playing their favourite game, WAR, jettisoned four high explosive bombs onto the Great Barrier Reef -- good shooting, morons! This incident should alert authorities to the seriousness of Gillard's treasonous action and should hopefully result in her arrest for treason.

The two AV-8B Harrier jets launched from aircraft carrier USS Bonhomme Richard each jettisoned an inert bomb and an unarmed explosive bomb in the World Heritage-listed marine park off the coast of Queensland state on Tuesday, the U.S. 7th Fleet said in a statement on Saturday.

The four bombs were dropped in more than 50 meters (164 feet) of water away from coral to minimise possible damage to the reef, the statement said. None exploded.

The jets from the 31st Marine Expeditionary Unit had intended to drop the ordinances on the Townshend Island bombing range but aborted the mission when controllers reported the area was not clear of hazards.

The pilots conducted the emergency jettison because they were low on fuel and could not land with their bomb load, the navy said.

The emergency happened on the second day of the biennial joint training exercise Talisman Saber, which brings together 28,000 U.S. and Australian military personnel over three week.
