"We have signatures of Sarin in hair and blood samples ..." said John Kerry to the international media -- it seems some urgency exists regarding PRODUCING CREDIBLE evidence that Assad's forces used chemical weapons, an illegal U.S. military attack on Syria requires the best fabricated 'proof!'

Liar and Dunce John Kerry -- watch videos carefully, no-one can hide LIES!

Indeed, all chemical agents leave tell-tale chemical signatures; that is exactly how the (false flag) anthrax letters were traced to a US military laboratory! After that highly incriminating and compromising discovery an unfortunate scapegoat had to be murdered to deflect the 9/11 crime away from those really responsible; internal rogue elements, Mossad and their Zionist plutocrat masters.

If you really seek TRUTH on these matters, interrogate (preferably enhanced) Wolfowitz, Perle, Cheney, Rice and Rumsfeld and hold them accountable for their transparent CRIMINAL actions; they are in full knowledge of the entire dastardly plot for perpetual war and US hegemony, which the false flag 9/11-anthrax letters operations allowed them to pursue -- notwithstanding enormous support and assistance from the CFR, Trilateral Commission and other co-operating elite organisations! The HISTORY and REALITY is as plain as day!

You will note that the mass media today endeavours, quite deliberately, to wipe the public's memory clean every 24 hours by overloading it with 'news'/data on a continuous basis; for the most part it works on the moronic masses, which can barely spell their names; however, historians, analysts and others are immune to such tricks and propaganda mechanisms and so are easily able to connect the very incriminating dots -- no conspiracy theories required, it's all plain to see and easily accessible (researched) today from highly credible professional and specialist sources.

So we have an historical track record/modus operandi, which includes the US attempting to force the Australian government -- during the Vietnam war -- to test deadly Sarin and Vx nerve gases on Aussie troops in Queensland. It seems those chemical agents proved too dangerous to test on American troops! The Oz PM at the time, Harold Holt, vehemently opposed that and other U.S. proposals -- he mysteriously disappeared while skindiving soon after (his body was never found) -- give me a break, criminal America!

After a decade of the most TRANSPARENT false flag OPERATIONS and brazen LIES (Balkans, Iraq-WMD, Afghanistan, Libya, Syria, etc) America now 'hopes' the world will swallow the FEEBLE bullshit that issues from Washington today. Well, good luck demented John Kerry, cos you ain't got a hope in Europe, Asia or down under!

A note to the America people, if you would prevent nefarious forces enslaving your nation simply switch off the privately owned and cooperating Corporate mass media and research these matters for yourselves, then (DEMAND) arrest and hold accountable ALL the officials of the Bush and Obama regimes -- without exception, they are ALL criminals.

If the obvious TRUTH be KNOWN -- KNOW IT!
