Let's not complicate the issue as the mass media endeavours to do at all times -- TRUTH is always simplicity itself, here's a taste: the enemy is not defined by colour, race, flag or ideology but by ACTIONS! Those that seek to divide and cause conflict in order to profit; those that constantly kill innocent people for profit; those that wage illegal wars for strategic dominance and profit are CLEARLY the enemy of ALL humankind.

The Adversity is not overcome by cringing in fear!

In the interests of clarity I will finish with a question; which nation leads the world in all the above criminal actions? Surprise, surprise, America!

Deal with that REALITY and you may have a slight chance to restore peace, justice and democracy to the world. Ignore it and you are quite simply doomed!

It's that simple!
