Make no mistake, Kissinger protégé Obama, is a commercial product and was second choice to Colin Powell who declined the offer of puppet president after his atrocious performance at the UN holding the infamous test tube of LIES and chemical weapons DECEIT! That shameful PERFORMANCE at the UN disgraced Powell from that moment thereafter. Powell, much to the disappointment of the world, turned out to be just another stinking lackey to the Plutocrats. But Obama, who lacked basic political experience, couldn't wait to be the first black, sell-out Uncle Tom in the White House and the rest is war crimes and totalitarian Police State history!

Obama's handlers, ever careful to tailor his public appearances and edit his mutterings, cannot save him now -- the KNOWN Drone war, civilian killing, indefinite detention, ubiquitous surveillance, terrorist president is an open, deceiving, sordid book for anyone to easily read today. The warmongering, civilian killing, peace prize laureate and supporter of al-Qaeda in Libya and Syria, has been ordered by the forces that placed him in the White House to depose Assad and install a US compliant government in Syria, similar to previous (temporary) 'successes' in Kosovo, Iraq, Afghanistan and Libya; but the world has had a gut full of American inhumanity, lies, deceptions, mass murders, HOLOCAUSTS, territorial grabs and resource plunder to last it for generations.

The cost the world is paying for an America empire is far too great for the world to bear and there was never a more inept empire than the American!

In just a few decades the US is directly responsible for over 6 million innocent civilian deaths (since Vietnam) millions more displaced persons and a trail of ruined States. The US with Britain and Australia, the coalition of willing criminals, has given the world its first human holocaust of the 21st century by illegally invading Iraq -- over one million needless civilian deaths in a truly bungled and inept colonial acquisition and occupation.

But it hasn't stopped there, onward with its terrorist allies to North Africa and the Middle East, but it seems the world will have no more of it, so Obama is now the Uncle Tom in the sandwich, he must deliver for the plutocrats or risk becoming entirely disposable, perhaps an assassination may suit the purposes of the floundering and desperate plutocrat agenda, we certainly hope so!

Obama has encountered a brick wall of resistance, locally and abroad, in his bid to wage ILLEGAL war on Syria.

In the short span of just over a few decades the US has managed, with its terrorist allies, to chalk up a human holocaust with millions slaughtered and displaced and all for what you may well ask? Solely for the benefit of the parasitic Banks and rapacious Corporations!

America runs its empire gangster style with no sophistication whatsoever, the Zionist controlled US is a brute force, Chicago style mobster set loose on a once innocent world, but not so innocent today, the WORLD has learned to its GREAT COST the TRUE face of America and it makes the portrait of Dorian Gray look angelic.

Good luck Obama cos you're damned if you do, and damned if you don't, sucker! You should've known there is a price for everything, including selling out your nation and its people, you stinking dog! You are NOW entirely expendable retaining only some value assassinated!
