Listen carefully to the video of Kerry and his arguments against al-Assad of Syria, then accept historical fact that the USA has murdered and maimed MILLIONS of innocent civilians and killed millions of CHILDREN in Indo-China and around the globe TODAY with chemical and other weapons which continue to cause terror and extreme hardship wherever they are used.

During the illegal Vietnam war The USA actually pressured the Australian government to be able test DEADLY Sarin and Vx nerve gases on Australian troops in Queensland -- there is no love lost to this day! Now consider, if the US was willing to do that to an ally what moral restraint would stop it committing the most heinous crimes on a perceived enemy?

The USA also supplied Saddam Husein with deadly chemical weapons to use against Iran, Saddam complied and also used those weapons on innocent Kurd civilians because they were ethnically and culturally independent!

The USA ILLEGALLY carpet bombed Laos and Cambodia with which it was not at war, slaughtering countless innocent tribespeople and peasant farmers. America committed these terrorist acts hoping to break, through the use of TERROR tactics, the will of the people but it had the reverse effect, as it always does -- you dumb, mass murdering, American brutes!

Now consider all the regions the USA has polluted with depleted uranium, from the Balkans to Iraq, Afghanistan, Pakistan, North Africa and elsewhere.

However, when circumstances permit the USA doesn't always resort to illegal chemical weapons it uses political weapons to terrorise and COERCE, embargos that kill innocent children -- 500,000 Iraqi children dead as a direct result of Clinton's medical embargos. Clinton's Sec. of State Albright, when questioned on that heinous crime, stated on national television that "it was worth it!"

So who are the REAL PSYCHOPATHS and which is the leading terrorist nation on this earth? No prizes for guessing, America on all counts and it's all VERIFIABLE HISTORY, no argument whatsoever! And Kerry attempts to trash Assad's credibility -- what colour pill have you taken today, America?

Kerry sets the clearest case yet for indicting US officials on war crimes; whether or not his questionable 'evidence' against Assad proves anything one way or the other, the [historical fact REMAINS](#), the USA is the WORLD'S leading civilian killing, terrorist nation!

Of course we realise that Americans regard themselves as exceptional and above the law, but they will learn the hard way that no person or nation is above the law -- least of all criminal America.

So, Mr Kerry, you are Vietnam generation, what are you going to do about civilian killing criminals like Cheney, Bush and Obama, they are in your OWN backyard, you brazen HYPOCRITE?

Unlike the US population, the global population does not have postage stamp memories which are wiped clean every 24 hours.
