China, Egypt back Palestine's statehood

Following a [recent assessment](#) by an assortment of intelligence firms and US think tanks, which clearly state that Israel is the greatest threat to peace and stability in the region and that America's best interests are NOT served by supporting Israel, China and Egypt have asserted Palestine's right to Statehood. China calls for a return to 1967 borders, which is inadequate, however, Israel should be aware that continuing its outrageous oppression, genocide and land grabs will eventually result in the dissolution of the stolen State and the second scattering of Jews throughout the world! So you better attack Iran now and drag the globe into a major conflict, ay! It's your only option, Bibi, the jig is up! Reassure yourself with previous successful attacks on the USS Liberty and the World Trade Centres -- go on Israel, do what you MUST!

China and Egypt have reaffirmed their support for an independent State of Palestine, according to a joint press communique issued on Thursday.

The independent state should have full sovereignty established on the basis of the 1967 borders, with East Jerusalem as its capital, said the communique, which also backed Palestine's participation in the United Nations and other international organizations.

The document was released after Egyptian President Mohamed Morsi's three-day state visit to China concluded early on Thursday morning.

It said China and Egypt support the international community in intensifying efforts to promote dialogues to finally solve the "Palestine question" through peaceful talks in a comprehensive and justified way.

China has spoken highly of Egypt's contribution on promoting peace between Palestine and Israel, and the country's promotion of internal compromise in Palestine, said the communique.

It added that Egypt appreciates China's efforts on supporting the just cause of the Palestinian people and safeguarding peace and stability in the Middle East.
