

Mass Media LIES -- It is NOT Hopeless, YOU are NOT POWERLESS!

by ryall Sunday, Oct 6 2013, 2:41am

international / prose / post

Do not believe the overt, covert and subliminal messages that constantly issue from the Corporate mass media; messages that attempt to convince you that it's hopeless, you can't do it, you can't make a difference, it's all too much to change the status quo etc., because it's a LIE! The list of individuals that changed the entire world in positive and negative ways is enormous; individuals invented everything we take for granted and enjoy today, from electricity (AC current) to every other major development known to society -- they did this because they BELIEVED -- not in some external enslaving God or power but in themselves.

They did not doubt themselves even though they met with almost universal opposition; they persevered until they achieved the desired result. Whether that was to trigger WWI and gain freedom or to create universally available AC power -- both these individuals just happened to be Serbs, and so am I, no coincidence; our belief in ourselves cannot be trampled, broken or corrupted simply because, like the Jews that currently control the world via their Banking and debt slavery methods, we have also been persecuted for thousands of years and have learned to survive by cleverly opposing overwhelming odds and prevailing when everything appeared impossible.

A minority Christian people fought against Muslim imperialist occupation for nearly a millennium with only nous, resourcefulness and perseverance -- and as history records we PREVAILED against all the odds, as we will prevail (make no mistake) against the evil, mass murdering American Empire that attempts to convince the entire world via its massive global propaganda apparatus that slaves should remain subservient slaves and serve the elite Zionist Banker and Corporate plutocracy that controls the Western, and a large part of the Eastern World.

But enough of my personal view and course. Whatever circumstances YOU find yourself in today, know this and know it well; by focusing on what causes the problems/obstructions in your life and then devising simple methods to eliminate those obstructions you too can overcome as other individuals that never took NO for an answer, have OVERCOME! However, before things improve the root causes of problems must be addressed and remedied

I'll give you a simple example that any person with a minimum level of intelligence is able to follow; anyone can drop anyone, FACT! Puppet to the ruling plutocracy, Obama, lives today simply because no one has decided to drop him. Most vets are easily able to accomplish this task, a self-trained patriot is also able to succeed. However, the real festering, maggot-ridden sores are Wall St Corporatists and Zionist Central Bankers, all of whom work together to ensure their crimes are immune from legal prosecution while we are subject to their political puppets and their regulatory agencies in turn -- BUT it does not have to be this way, of that be assured.

This mass murdering criminal minority can be wiped out in a day, globally -- they are all known to us and are easily located. These are just simple examples of easily accomplished tasks that individuals are capable of achieving -- never submit or believe that you are powerless, if a poor, uneducated, [victimised and abused Serb](#) can do it, how much more could an 'exceptional' yankee doodle dreamboat accomplish? The TRUTH is no-one is powerless or unable; spit in the eye of those that

would attempt to convince you to DEFER or surrender your self-determination for whatever reason -- it (keeping us safe) is a LIE -- do not allow yourselves to be enslaved, FIGHT for your lives.

The fact is that ruling criminal mass murdering minorities are not able to contain the majority for extended periods, history bears witness to the numerous routings of criminal ruling elites; it's a regular spectacle/event.

I will leave you with the lyrics of a popular song which encapsulates a future for those people that are willing to overcome the dark forces that prevail against them.
