

Chomsky: here we go again!

by len Sunday, Oct 6 2013, 11:36pm

international / prose / post

The title of the latest propaganda piece, "American Exceptionalism And The Obama Doctrine," from that reprehensible sell-out traitor, Chomsky, who it must be remembered supports (on record) the government MYTH of the Bin Laden assassination by a Navy Seal team, which is based on heresy -- no hard evidence whatsoever -- and who also attributes the now proven false flag inside 9/11 job to Bin Laden when even the FBI dares not venture into that precarious ground, has once AGAIN deflected attention AWAY FROM THE GUILTY CRIMINAL ZIONIST PLUTOCRACY to their presentation/fall guy, PUPPET president and Kissinger protégé, Barack Obama. But should we be surprised, Chomsky is just another Jew keeping the faith -- his academic qualifications scream that he KNOWS better!

Chomsky, too easy

It is clear today that dutiful puppet Obama, who has done nothing but accelerate the neo-con agenda, is a servant of the GLOBAL plutocracy whose policies he implements on command.

'Obama' has veered so far from the founding documents of the Republic that the USA might as well be just another totalitarian police state, which according to the new 'laws' faithful servant Obama has implemented, qualifies it perfectly in that regard!

For those who doubt the existence of a global cabal of wealthy CRIMINAL plutocrats that use the USA and its slave population like a resource, simply ask yourself why America is able to commit war crimes and other crimes against humanity on a DAILY BASIS with IMPUNITY when other nations are held accountable for the slightest breach of the LAWS that America flouts in the grossest manner possible?

There is so much evidence to support the REALITY that a tiny cabal of Zionist Central Banking Jews and gentile mega-wealthy have partnered to destroy our freedoms and liberties, it is overwhelming -- think for a minute, were have all your hard won freedoms and liberties gone over the past decade and who is benefited by these new police state policies, certainly not Y-O-U!

Look behind the CHARADE of performing puppets like Obama and then target the real criminal PLUTOCRATS that would enslave you and feed you to the dogs whenever it suits them, as they do on a daily basis to whoever interferes with their designs. Well, the reality is simple; plutocrats number

in the very few hundreds globally, while WE the PEOPLE, number in the BILLIONS! Choke on that statistic you evil bastards and realise that it only takes a fraction of that number to rid this earth of mass murdering, child killing scum that have no regard for innocent human life or anything else.

As for the global majority, awareness is increasing at an exponential rate and JUSTICE will be served sooner than anyone has imagined. Traitorous politicians beware, all bought lackeys that serve the wealthy MINORITY and betray their people and the democratic ideal, know that your future is sealed and you present a convenient target on a daily basis -- what's your narcissism worth now, there are no mirrors in hell?

Those interested in analysing Chomsky's latest diatribe and its subliminal message follow the link below but please learn to read various layers of discourse within a given text -- oft times the dominant message is buried in the secondary layer discourse; Obama is a reprehensible LACKEY (fact) and has no doctrine other than what he is ordered to implement by his masters!

To the ignorant -- ignore reality at your very high cost, (expendable) SLAVES!
