international / prose / post

It's PLAIN to see, SLAVES -- there is no freedom if the people are subject to State surveillance. In fact, global surveillance is the most intrusive form of slave management. That is obvious fact and the current REALITY -- you pathetic cowards!

Blue Rock

What makes matters worse -- horrid in fact -- is that the people doing the spying are known, proven CRIMINALS and sociopaths. Choke on some real facts for a change, dreamboats. But really, I am loath to pull you away from Miley Cyrus' tongue idiotically protruding from the side of her moronic mouth; indeed, please return to your TV sets and the mind-numbing effluent that issues from it!

Be aware that your slave masters have no concern for your miserable, pathetic lives and neither do we, the underground elite! But you are entitled to know WHY -- simply because you do NOT DESERVE any consideration, assistance or support. Help yourselves FIRST and you MAY earn the right to be assisted and supported -- in the meantime, SLAVES, you are 'factory and cannon' fodder, FIT FOR THE SLAUGHTER!

You should be aware that times have changed dramatically and that emergent elites no longer require the support of the masses to realise social change or to tip the balance in any direction they choose. The simple fact is that evolutionary change is now in the hands of exceptional individuals, ALONE! They have everything they require to effect monumental change GLOBALLY. It was hinted at in a previous post, a new emergent elite would turn the WORLD on its ear -- well, you'd better believe it.

So, morons, you are out there by your incompetent, totally dependent, cowardly selves and it couldn't be sweeter for those exceptional individuals that have been persecuted by moronic masses and minority elites alike.

However, fortunately for some, we are of more noble stock and would assist those that DEMONSTRATE they are willing to fight for their rights.

We have cracked most security ID hardware and software, which affords complete social freedom and broadens physical mobility -- options previously unavailable in pre-digital societies.

We have maintained our anonymity and purged ourselves of all desire for public recognition -- we are happy to share knowledge of our achievements between a very few exceptional individuals. I'm sure you get the full picture, morons. I'm almost tempted to say go fuck yourselves but would resist

the temptation for the few who may choose to fight.

So, where do YOU go from here, dreamboats? Mindless masses remain the most powerful social force for permanent change that exists, but for how much longer we do not know. Our funds and resources are obtained as easily as picking apples from a (digital) tree, while slaves continue toil for elite parasites for minimal returns!

You need us, we no longer need you! How very sweet it is to be free of moronic obstructions and dead, useless weight. Either get skilled, fight and remove the minority that enslaves you or continue in bondage and misery unassisted.

Taste this new reality slaves and yearn, or fight -- face your limited, narrowing options and despair. There is a price to everything and cowardice continues to carry a huge price tag.
