

The Meaninglessness of the Mass Media today

After the powers completed their assassination program of various political and cultural notables of the 60's, JFK, MLK, Malcolm X, Hendrix, Joplin, Marley, Lennon, Sid, Jim etc; there are too many to list here, the cultural scene was gutted and the investigative tradition of real journalism died.

I was listening to the social/political songs, of Floyd, 'Money and Mother' and numerous other 60's and 70's artists and then drew a comparison with what youth are fed today; no politics, no meaning, no anything except titillation; Miley Cyrus poking her moronic tongue out, scratching her stupid cunt and poking her arse -- rear view crotch -- at the audience, wow, how deep and relevant is that mindless message? But it's all a part of the CFR 'titainment' social control agenda.

The real traj, is not stupid Cyrus selling her soul for transitory pennies and a little media exposure, it's the moronic, mindless masses of today that actually consume that shit -- unadulterated, mindless CFR crap, without a second thought.

However, we should not forget that the closest the powers ever came to losing their grip on society was in the 60's. Mass political awareness and consciousness expanding was the order of the day, a multitude of movements and passionate political action groups -- supported by the pop-ular culture of the day -- spread spontaneously around the globe and an illegal, criminal war was stopped. It was a truly inspiring period of social history. Now, what inspires the tragic, alienated, ineffective, dead loses of today, masturbation and internet pornography -- but that's exactly how the powers want it, you spineless, mindless, USELESS, saps? There is no positive meaning in the message, only more vacuity and mindlessness.

So where are the guard dogs of democracy, investigative journalists? They have all been relegated to history, as though they belong to another era and that this type of journalism -- exposing the evils of the private and public government sectors -- is somehow now obsolete. Investigative journalists have been replaced with sycophants and 'packaged information handlers' that merely announce what the privately owned media barons dictate; anyone that veers from the propaganda message is immediately ostracised and dumped. So rather than walk/STRIKE until freedom is restored, today's 'journos' suck up to the plutocrats and media magnates/maggots in order to pay their bills. Just a little solidarity and INTEGRITY would put an end to CFR dictated propaganda/social control and replace it with reportage of REALITY -- climate catastrophe, the evils of government and its agencies and the horrendous destruction wrought on the planet by profit-only driven, mega corporations.

A truly creative entertainment industry is able to survive but only as a unified block of mutually supportive artists, which should include all writers in the industry -- **the show STOPS without the artists and writers!** As a unified body creative ARTISTS and journalists with integrity are easily able to counteract the poison that issues from the plutocrats and mass media moguls/maggots.

Why not give it a whirl, the only thing you have to lose is your subservience and slave status -- historically, artists have always been at the vanguard of social change.

Everything has a price and the price of Miley Cyrus' idiotic distracting tongue and cunt is 'permanent war' and forfeited peace -- the PNAC agenda -- you staggeringly stupid, dumb fuck's!
