The reason America 'spits chips' and throws the book (library) at whistleblowers and journalists that oppose the regime is primarily related to 9/11.

WTC 7 is just one gross irregularity

Since Manning and his exemplary, heroism and moral principles each successive whistleblower has revealed more dirt on the USA and its appalling criminal practices.

As each revelation cuts closer to the bone the morbid fear that grips Washington is that the sordid TRUTH of 9/11 will be revealed by one of the many participants in the false flag conspiracy.

The world would never forget the person that exposed the greatest criminal conspiracy of the century and set legal processes in motion that would result in the execution of numerous high officials, past and present, for treason and mass murder. The fear of a 9/11 whistleblower is palpable in Washington and in elite circles.

It is not a matter of 'if' but when the obvious conspiracy of 9/11 will be exposed to the world. Various US officials, Zionists and Mossad sleep very badly over the inevitable prospect. We are able, with authority, to state that 9/11 exposure is a certainty!

[9/11 remains the most obvious and bungled false flag conspiracy in history -- proof of the fact has been published by numerous highly educated specialists and experts from many different fields and disciplines including police, firefighters, physicists, structural engineers, architects, metallurgists, demolitions experts and many others -- proof of a conspiracy is overwhelming, exposure is only a matter of time as the scientific evidence is accurate and plentiful; however, the testimony of an insider/whistleblower would deliver the death blow for the conspirators!]
